IoT Tech Day 2016

Previous partner experience

"The IoT Tech Day was the best event I attended in a long time:

- › I found solutions I was looking for.
 - › I learned something new and useful.
 - › I had very good discussions with prospective customers and collected several leads.
 - › I connected with colleagues and identified opportunities to collaborate.
- Seldom have I accomplished all of these goals at 1 event and on 1 day."*

Prof. Dr. Michael J. Capone - Principal Analyst, Digital at Capgemini
